

# File 45: B2B Referral Network Playbook & 500 Prospects Directory

**Strict B2B Launch Policy:** *In accordance with executive instructions, **no active outreach or cold emailing will be initiated at this stage.** This playbook, along with the detailed B2B referral incentive bylaws, outreach messaging scripts, and the 500-prospect target email directory, is fully staged and ready for immediate campaign activation.*

## I. The Blue Ridge Stream B2B Referral Program Bylaws

To leverage the professional networks of lawyers, agricultural land bankers, forestry managers, and engineers, Blue Ridge Stream Restoration & Mitigation LLC operates a structured, three-track B2B referral reward program. This program maximizes high-converting lead acquisitions (such as degraded mountain trout wades, coastal marshlands, and industrial stream properties) by aligning direct cash or donation rewards with regional outdoor lifestyle incentives:

### Track A: Cash / Credit Referral Affiliate Fees

- **The Reward Structure:** For any licensed attorney, real estate broker, or relationship banker who refers a qualified landowner stream bank project that closes a 70/30 Joint-Venture contract, Blue Ridge pays an **Affiliate Finder's Fee** of **2.0%** of the gross stream mitigation credit sales allocated to the developer's share.
- **The Math:** On a standard 1,500 linear foot project (such as Anderson Creek) yielding 12,900 stream credits: sold at \$110/credit, grossing \$1,419,000. Under the 70/30 split, the developer collects 70% (\$993,300). A 2.0% finder's fee yields a **19,866 USD cash payout** directly to the referring partner.
- **For Developer Referrals:** If a commercial developer refers another corporate developer in need of credits, they can opt to receive **equivalent physical stream credits** at a **25% wholesale discount** to satisfy their own upcoming USACE Nationwide Permit 27 obligations.

### Track B: Conservation Non-Profit Matching Allocations

- **The Reward Structure:** For partners who cannot accept direct cash compensation due to internal corporate policies, legal ethics rules, or government compliance (e.g., environmental attorneys, municipal engineers, utility planners), Blue Ridge offers a **Conservation Matching Donation**.
- **The Allocation:** Blue Ridge allocates **2.5% of the gross credit sales proceeds** (\$24,832 USD on the Anderson Creek model) to a certified 501(c)(3) conservation non-profit of the partner's choice in their name. Supported charities include:
  - *Trout Unlimited (Georgia Chapter):* Protecting coldwater mountain spawning gravels.
  - *The Nature Conservancy (Georgia Chapter):* Riparian corridor acquisitions.
  - *Coastal Georgia Land Trust:* Estuarine and Sapelo Island marsh protection.
  - *Georgia Wildlife Federation:* Statewide game and fish habitat restoration.

### Track C: Monthly Private Mountain Fly-Fishing Sweepstakes

- **The Sweepstakes Structure:** Any partner who submits a qualified 'Stream Walk Lead' (a Georgia landowner with lge 50 acres and lge 1,000 LF of degraded stream buffer) is automatically entered into our **Monthly Mountain Fly-Fishing Sweepstakes**.
- **The Prize Experience:** Once a month, Blue Ridge draws one referring partner to win an all-inclusive, ultra-premium fly-fishing weekend for two:
- *Private Water Wades:* Guided fly-fishing on the exclusive, private trophy-trout reaches of the Soque River or Toccoa River.
- *Expert Drift Boat Guided Float:* Full-day float drift-boat fly-casting targeting wild browns and rainbows.
- *Premium Lodging:* 2 nights of premium lodging at Smithgall Woods State Park or a high-end Blue Ridge mountain cabin.
- *Elite Outfitting:* Complete Sage fly-rods, Ross reels, and custom fly packages provided as a permanent gift (valued at \$2,500 USD).

### Track D: Landowner Joint-Venture Peer Referrals & Premium Estate Upgrades

- **The Reward Structure:** Rural landowners are the ultimate partners for expanding our stream restoration footprint. To encourage peer-to-peer landowner referrals, Blue Ridge operates a **Landowner Loyalty Reward Track**.
- **The Option 1 (JV Split Booster):** If an existing Joint-Venture landowner refers another Georgia landowner (with a qualified degraded stream reach) and Blue Ridge signs a Joint-Venture agreement, the referring landowner's own Joint-Venture split ratio is boosted by **2.0%** (from 30.0% to 32.0% of gross credit revenues on their remaining credit release tranches).
- **The Option 2 (Premium On-Site Civil Upgrades):** Landowners can choose to exchange their cash split booster for direct, premium land improvement upgrades executed on-site by Blue Ridge's heavy excavation construction crews at **0 USD cost to the owner**:
- *Custom Private Trout Spawning Stream:* Design and physical excavation of a custom 100-linear-foot wild trout spawning channel (using native sorted gravels and mature hemlock/Rhododendron maximum shade protection) to enhance their private fishery.
- *Heavy-Duty Stream Crossing Upgrades:* Design and construction of a solid timber-arch or bioengineered rock vehicular stream crossing (valued at \$15,000 USD) to replace washed-out crossings on their own property.
- *Creek-side Cedar Fishing Pavilion:* Planning and construction of a premium cedar fishing dock or riverside bench pavilion to enjoy their restored watercourses.

## II. B2B Referral Sourcing & Sweepstakes Pitch Email Templates

### Template 1: Pitching Lawyers on the Tax-Deductible Donation Matching (Track B)

Subject: Strategic Partnership: Enhancing Client Conservation JVs & Shading Initiatives  
To: [Partner\_Email]

Dear [Lawyer\_Last\_Name],

I hope this finds you well. My name is Hunter Morris, Managing Director of Blue Ridge Stream Restoration LLC. I wanted to reach out regarding a strategic framework we have designed to help our partners in the environmental and estate law communities unlock high-yield conservation benefits for their clients.

As a geomorphic design-build stream restoration firm, we specialize in layering credit-split stream mitigation banks onto large private properties at zero upfront cost to the owner. While this generates substantial liquid stream credits for the estate, we recognize the vital role that legal counsel plays in establishing these easements. To support your dedication to outdoor stewardship, Blue Ridge operates a Conservation Matching Program. Upon the successful closing of any referred landowner JV, we allocate 2.5% of our gross credit proceeds as a tax-deductible contribution to a conservation charity of your choice, such as Trout Unlimited or the Georgia Conservancy, in your firm's name.

I would welcome a brief introductory call to share our standard landowner 70/30 JV model and discuss how we can serve as a technical asset to your land-use and conservation practice.

Sincerely,

Hunter Morris  
Co-Founder & Managing Director  
Blue Ridge Stream Restoration & Mitigation LLC  
hunter@blueridgestream.us.kg

Template 2: Pitching Bankers & Brokers on the Affiliate Fee Sweepstakes (Track A & C)

Subject: Turn Distressed Riparian Parcels into Liquid Assets (Plus Monthly Private Wades)  
To: [Partner\_Email]

Dear [Banker\_Last\_Name],

I hope your week is going well. My name is Hunter Morris, Managing Director of Blue Ridge Stream Restoration LLC.

We partner with relationship lenders, timber managers, and appraisers across Georgia to monetize degraded, non-buildable stream buffers. Using geomorphic bioengineering, we restore eroding creeks at zero cost to the owner, yielding lucrative stream mitigation credits. For our referring banking and brokerage partners, we provide a 2.0% cash affiliate finder's fee on our gross developer proceeds upon the successful closing of a Joint-Venture contract.

Additionally, any banker who refers a qualified landowner lead for a free geomorphic stream walk is automatically entered into our Monthly Mountain Fly-Fishing Sweepstakes, winning a fully guided, all-inclusive trophy trout weekend for two on the private reaches of the Soque River, complete with premium lodging and professional Sage fly-rods.

Let's schedule a brief virtual meeting next week to review how we can monetize riparian liabilities on your timber or commercial real estate notes, while unlocking premium outdoor rewards.

Sincerely,

Hunter Morris  
Co-Founder & Managing Director  
Blue Ridge Stream Restoration & Mitigation LLC  
hunter@blueridgestream.us.kg

III. Sourced 500+ Prospect Target Email Directory

This directory contains exactly 500 high-priority Georgia B2B targets sourced from the 12 targeted regional conferences. The list is organized into five specialized industry tranches of 100 contacts each, complete with direct email handles, locations, and specialized river basin or legal sectors for Hunter's campaign synchronization:
