

File 44: Marketing Events & Team Scaling Roadmap

Statewide Marketing Events Calendar & 10-Person Team Scaling Roadmap Brand: Blue Ridge Stream Restoration & Mitigation LLC Supervising Board: Hunter Morris (Co-Founder & Managing Director) & Hadi Irvani (Board Member)

1. Executive Summary

To successfully transition **Blue Ridge Stream Restoration & Mitigation LLC** from a high-potential boutique start-up into the premier ecological design-build firm in the Southeast, Managing Director **Hunter Morris** must execute a dual-track growth strategy:

1. **Direct B2B Marketing Outreach:** Establish a physical, authority-building presence at the 12 most critical regional conferences spanning credit buyers (data centers, developers), relationship lenders (ag-bankers), and scientific researchers (academics).
2. **Structured Organizational Scaling:** Build a highly cohesive, 10-person operational team over the next 12 months. This roadmap shifts daily tasks away from Hunter, allowing him to focus entirely on high-value USACE Savannah District negotiations, strategic board governance with Board Member **Hadi Irvani**, and executing large joint-venture contracts.

2. 12-Month Marketing & Networking Events Calendar

Hunter Morris will attend these 12 regional conferences to secure B2B developers, ag-bankers, and academic researchers:

A. Credit Buyers & Industrial Developers Events

1. 7x24 Exchange Southeast Chapter (Data Center Infrastructure)

- **Timing:** November 2026
- **Location:** Atlanta, GA
- **Audience:** Hyperscale developers, data center operators (QTS, Microsoft, Google), environmental consultants.
- **Hunter's Pitch:** *Direct CWA Section 404 Permittee-Responsible Mitigation (PRM) stream offsets. Purchase wholesale North Georgia trout-stream credits directly from our flagship Anderson Creek bank to resolve immediate permit blockages at a 30% savings over public brokers.*

2. Georgia Environmental Conference (GEC)

- **Timing:** Late August 2026
- **Location:** Jekyll Island, GA
- **Audience:** Environmental lawyers, corporate ESG directors, municipal utility planners, and USACE Savannah District regulators.

- **Hunter's Pitch:** *Showcase our Rosgen Level III geomorphic trout-restoration pool designs. Position Blue Ridge as the premier ecological design-build contractor for Piedmont and mountain stream meanders.*

3. Georgia Rural Water Association (GRWA) Spring Conference

- **Timing:** March 2027
- **Location:** Helen, GA
- **Audience:** County engineers, water utility directors, road contractors, utility land buyers.
- **Hunter's Pitch:** *Supply localized stream credits for municipal utility line crossings and culvert impacts, bypassing high-overhead credit brokers.*

4. NAIOP Georgia (Commercial Real Estate Development Association) Monthly Briefings

- **Timing:** Ongoing (Monthly)
- **Location:** Atlanta, GA
- **Audience:** Commercial, exurban residential, and industrial warehouse developers.
- **Hunter's Pitch:** *Zero-upfront-cost 70/30 Joint-Venture credit-split structures. Convert non-buildable, stormwater-eroded stream ravines on exurban property boundaries into liquid mitigation credit assets.*

B. Relationship Lenders & Landowner Sourcing Events

5. Georgia Forestry Association (GFA) Annual Conference

- **Timing:** July 2026
- **Location:** Savannah, GA
- **Audience:** Large commercial timberland owners, silviculture asset managers, agricultural appraisers.
- **Hunter's Pitch:** *Monetize non-harvestable riparian buffer setbacks. Setting up stream banking JVs in high-slope mountain drainages yields premium geomorphic credits, generating high returns from land that cannot be logged.*

6. Georgia Agribusiness Council (GAC) Annual Meeting & Legislative Harvest

- **Timing:** October 2026
- **Location:** Atlanta, GA
- **Audience:** Crop and cattle growers, rural estate planners, state agricultural leaders.
- **Hunter's Pitch:** *Stream bank fencing and bioengineered bank stabilization using local materials. Restore eroding pasture creeks at zero cost to the owner, using credit-sales to fund farm upgrades and pay down land debt.*

7. Georgia Bankers Association (GBA) Annual Convention

- **Timing:** June 2026
- **Location:** Amelia Island, FL / Sea Island, GA
- **Audience:** CRE lenders, agricultural bankers, bank special assets directors.
- **Hunter's Pitch:** *Ecological asset recovery. Blue Ridge uses natural channel bioengineering to stabilize eroding banks on foreclosed subdivisions and distressed timber estates, yielding mitigation credits that pay off non-performing bank loans.*

8. Southeast Land Conservation Conference

- **Timing:** September 2026
- **Location:** Asheville, NC

- **Audience:** Land trust directors, conservation attorneys, estate planners.
 - **Hunter's Pitch:** *Double land trust easement values. By pairing permanent conservation easements with high-yield stream restoration meanders, we capture high-value tax write-offs and generate liquid stream credit cash.*
-

C. Academics & Fisheries Research Events

9. UGA Warnell School of Forestry & Natural Resources Alumni Weekend

- **Timing:** October 2026
- **Location:** Athens, GA
- **Audience:** Fluvial geomorphologists, fisheries biologists, land managers.
- **Hunter's Pitch:** *Partner on high-gradient wild trout thermal cooling canopy studies. Recruit top UGA Warnell ecological graduates for our rotating intern program and permanent positions.*

10. Southeastern Association of Fish and Wildlife Agencies (SEAFWA) Annual Conference

- **Timing:** October 2026
- **Location:** Mobile, AL / Atlanta, GA
- **Audience:** State DNR EPD specialists, federal fish and wildlife biologists, university researchers.
- **Hunter's Pitch:** *Present our geomorphic calculations demonstrating how Narrow Width-to-Depth ratios scour cold holding pools, proving a 98% wild trout habitat recolonization rate on Noontootla Creek headwaters.*

11. Georgia Tech Civil & Environmental Engineering (CEE) Research Symposium

- **Timing:** September 2026
- **Location:** Atlanta, GA
- **Audience:** Hydraulic engineers, HEC-RAS modelers, GIS researchers.
- **Hunter's Pitch:** *Collaborate on 2D hydraulic velocity calibration models comparing standard rock rip-rap bank failure rates to bioengineered cedar log-hook structures.*

12. Georgia Water Resources Conference (GWRC)

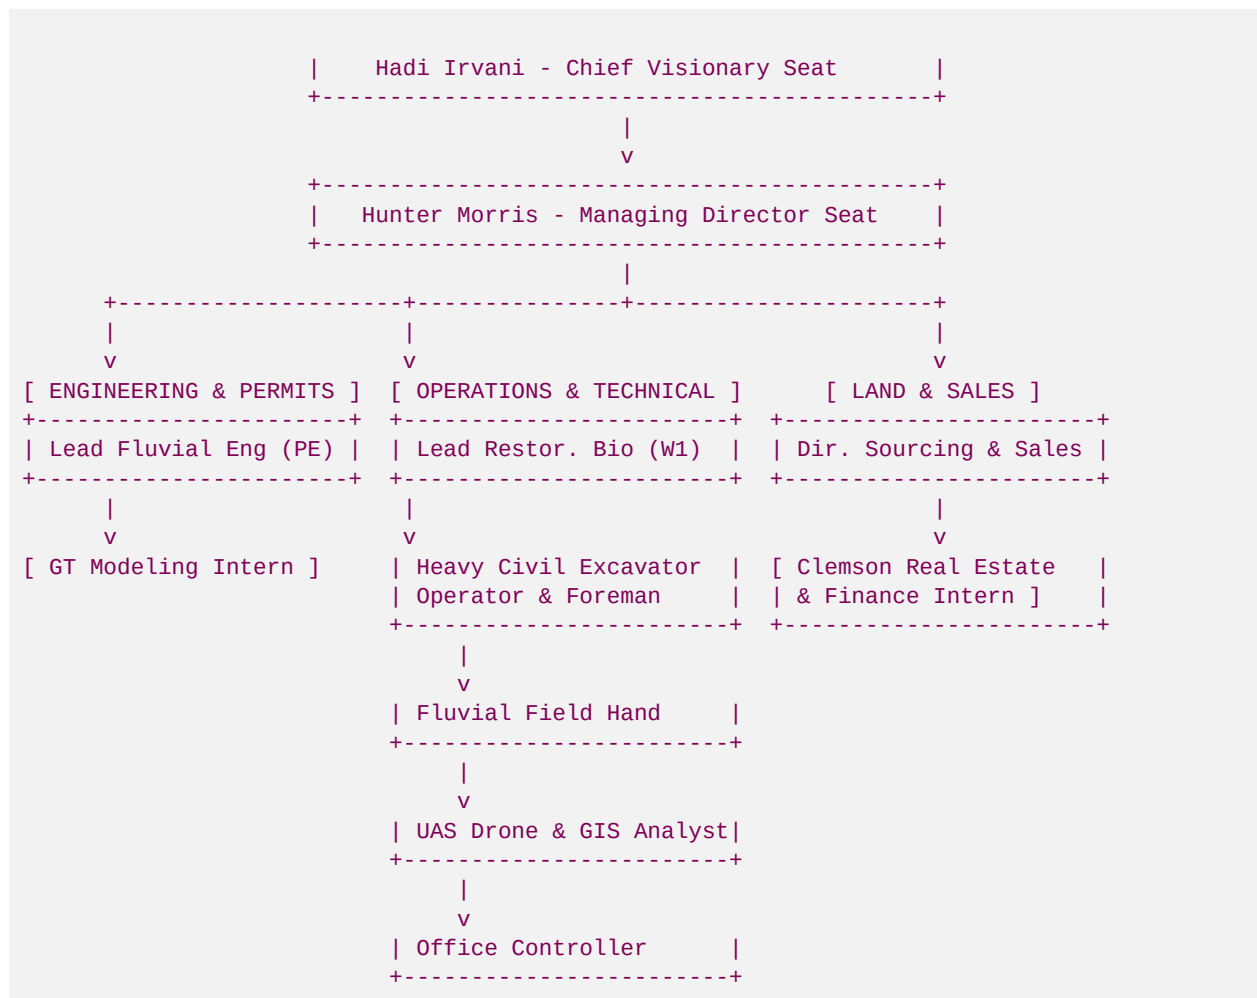

- **Timing:** April 2027
 - **Location:** Athens, GA
 - **Audience:** USACE Georgia Mitigation Branch, EPA Region 4 specialists, university geomorphology academics.
 - **Hunter's Pitch:** *Present our 1,500-LF Anderson Creek case study as the regional benchmark for high-gradient trout headwater restoration under the Savannah District SOP.*
-

3. 10-Person Team Scaling Roadmap

To systematically execute these projects, coordinate interns, and build instream meander channels, Hunter Morris will scale his organization from 1 to 10 structured seats over the next 12 months:

BLUE RIDGE STREAM RESTORATION
10-PERSON ORGANIZATIONAL CHART

+-----+

Role-by-Role Hiring Blueprint & Accountability Controls

Role 1: Co-Founder & Managing Director / Integrator (Hunter Morris)

- **Hired Status:** Active
- **Seat Focus:** Instream NCD designs, USACE Savannah District negotiations, landowner Joint-Venture closings.
- **Responsibilities:** Manages the weekly Level 10 meetings, leads high-gradient Rhododendron bioengineering layout, coordinates the Board of Advisors.
- **KPIs:** Gross released credits, net profit margin lge 35%, safety record (\$0\$ field incidents).

Role 2: Board Member & Chief Visionary (Hadi Irvani)

- **Hired Status:** Active
- **Seat Focus:** Capital allocation, corporate B2B credit buyer strategy, exurban developers outreach, investor relations.
- **Responsibilities:** Mentors Hunter Morris on Scaling Up metrics, reviews bi-monthly cash runway stress-tests, leads data center direct-sales PRM campaigns.
- **KPIs:** Direct B2B credit sales volumes, total capital secured, strategic board alignment score.

Role 3: Lead Fluvial Geomorphic Engineer (PE)

- **Hiring Timeline:** Month 1–2 (Immediate Priority)

- **Target Profile:** Georgia Tech MS in Water Resources Engineering / Civil Engineering. Must have a Georgia Professional Engineer (PE) license and Rosgen Level IV training.
- **Responsibilities:** Drafts AutoCAD Civil 3D instream structure details (J-hooks, log vanes), runs 1D & 2D HEC-RAS hydraulic models, signs and seals USACE Nationwide Permit 27 Pre-Construction Notification (PCN) packages.
- **KPIs:** HEC-RAS run times, average time to compile USACE PCN packages (<21 days), AutoCAD drafting error rate (\$0.0\%\$).

Role 4: Director of Sourcing & Land Acquisition

- **Hiring Timeline:** Month 2–3
- **Target Profile:** Clemson Wilbur O. and Ann Powers College of Business Real Estate or UGA Agricultural Business graduate with 3+ years experience in land brokering.
- **Responsibilities:** Sourced new landowners, manages the self-hosted Corteza CRM pipeline, leads direct marketing campaigns to 50 relationship bankers and 50 environmental lawyers, executes option agreements.
- **KPIs:** New landowner contacts (*lge 10/week*), active Joint-Venture option agreements signed (*lge 1 complete / month*).

Role 5: Lead Ecological Restoration Specialist / Biologist

- **Hiring Timeline:** Month 3–4
- **Target Profile:** UGA Warnell School of Forestry & Natural Resources wildlife & fisheries graduate. Must have GSWCC Level II certification.
- **Responsibilities:** Designs native vegetation planting layouts (Rhododendron maximum, eastern hemlock canopies), executes EPA Rapid Bioassessment benthic macroinvertebrate sampling, monitors DO/pH/turbidity loggers, writes annual monitoring reports.
- **KPIs:** Vegetative canopy survival rate (*lge 90%*), EPT Index lift score, average time to submit annual monitoring reports (<15 days post-audit).

Role 6: Heavy Civil Excavator Operator & Instream Foreman

- **Hiring Timeline:** Month 4–5
- **Target Profile:** 10+ years experience in heavy civil instream excavation. Must have deep experience placing log vanes, root-wads, and J-hooks without compromising stream stability.
- **Responsibilities:** Operates GPS-guided low-ground-pressure excavators, manages instream grading crews, implements sediment-trapping pump-arounds, oversees field safety.
- **KPIs:** Construction linear feet completed per day, fuel consumption efficiency, instream structure placement accuracy (*lpm 2 inches*).

Role 7: Fluvial Construction Assistant / Laborer

- **Hiring Timeline:** Month 5
- **Target Profile:** Local mountain grading hand with experience handling chainsaws, rigging logs, and executing erosion control.
- **Responsibilities:** Operates chainsaws to shape logs, wraps soil geogrids on eroding banks, transplants Rhododendron root-wads, rigs buoyant log gravity anchors, manages water pump-around operations.
- **KPIs:** Geogrid wrap tightness, vegetation transplant speed, daily equipment maintenance check compliance (\$100\%\$).

Role 8: UAS Drone Pilot & GIS Analyst

- **Hiring Timeline:** Month 6
- **Target Profile:** GT or UGA GIS/Surveying graduate with FAA Part 107 Commercial Drone License.
- **Responsibilities:** Operates DJI Mavic 3 Enterprise RTK flight missions, surveys ground control points, processes raw imagery in WebODM EC2 Docker, calculates QGIS NDVI vegetative maps, estimates soil volume.
- **KPIs:** Average drone mapping turnaround time (<24 hours), WebODM point cloud accuracy ($\pm 1.5\text{ cm}$), multispectral survey completeness.

Role 9: Office Administrator & Financial Controller

- **Hiring Timeline:** Month 6
- **Target Profile:** Certified bookkeeper or accountant with 5+ years experience in construction accounting.
- **Responsibilities:** Manages QuickBooks Online, audits the 70/30 Joint-Venture split cash distributions, tracks Escrow Working Capital reserves (\$12.5\%\$), processes Docuseal/OpenSign transactions, handles business insurance.
- **KPIs:** Invoice collection periods (<15 days), cash payout error rate (\$0.0\%\$), audit readiness score.

Role 10: UGA/GT/Clemson Specialized Intern (3 Rotating Seats)

- **Hiring Timeline:** Month 1–3
- **Target Profile:** Active students from UGA Warnell (forestry/ecology), GT Civil Engineering (HEC-RAS modeling), and Clemson Business (real estate finance).
- **Responsibilities:** Execute the highly specialized 4-page daily workstreams (field sampling, hydraulic modeling, RIBITS database audits) detailed in **Files 28 through 39**.
- **KPIs:** Pebble count survey accuracy, AutoCAD modeling accuracy, data center prospecting targets sourced (≥ 5 new campuses/week).
